

Request for Proposal (RFP) #05 — 2025-08-13

Background: Sponsor requests a preclinical immunogenicity study assessing T cell responses to candidate antigen.

Timeline: 6 weeks from sample receipt; milestones at week 2 and week 4.

Scope: Include PBMC isolation, flow cytometry panel with 16 colors (CD3, CD4, CD8, CD45RA, CCR7, IFN γ , TNF α , IL-2, etc.), and ELISA for cytokines.

Deliverables: Raw FCS files, gating strategy report, annotated spreadsheets, and a final PDF summary.
