

Request for Proposal (RFP) #10 — 2025-08-13

Scope: Include PBMC isolation, flow cytometry panel with 16 colors (CD3, CD4, CD8, CD45RA, CCR7, IFN γ , TNF α , IL-2, etc.), and ELISA for cytokines.

Background: Sponsor requests a preclinical immunogenicity study assessing T cell responses to candidate antigen.

Budget: Provide line-item costs for reagents, instrument time, analyst hours, and QA review.

Deliverables: Raw FCS files, gating strategy report, annotated spreadsheets, and a final PDF summary.
